Python Full-Stack Developer — SQL Developer — UI/UX Designer — Web Developer

PROFESSIONAL SUMMARY

Python Full-Stack Developer with internship experience in web application development, database management, and AI-based solutions. Proficient in Python, MySQL, HTML, CSS, JavaScript. Experienced in developing scalable web applications and implementing machine learning concepts through academic and internship projects. Seeking an opportunity to contribute technical expertise while continuously learning and growing in the software industry.

INTERNSHIP EXPERIENCE

Optimus Technocrates (India) Pvt. Ltd., Salem, Tamil Nadu June 2025 – August 2025
Python Full-Stack Developer Intern

- Developed and maintained web applications using Python, HTML, CSS, and JavaScript.
- Integrated frontend interfaces with backend services.
- Worked with MySQL databases for data storage and retrieval.
- Used Git and GitHub for version control and project collaboration.
- Participated in software development, testing, and debugging activities.

PROJECTS

• Intelligent Traffic Incident Analysis

Developed a machine learning system to analyze traffic incidents and predict traffic patterns.

Technology Usage:

- **Python** – Core programming language used for implementation.
- **Pandas** – Used for data cleaning, preprocessing, and dataset handling.
- **NumPy** – Used for numerical computations and array operations.
- **Scikit-learn** – Used to train and evaluate machine learning models.
- **Matplotlib** – Used to visualize traffic trends and model results.

• AI Healthcare Chatbot

Developed an AI-powered chatbot to answer healthcare-related queries using Natural Language Processing.

Technology Usage:

- **Python** – Used for chatbot logic and backend development.
- **NLTK** – Used for text preprocessing, tokenization, and intent analysis.
- **TensorFlow** – Used for training deep learning models for response prediction.
- **Flask** – Used to create APIs and connect the chatbot with the user interface.
- **SQLite** – Used to store user queries and chatbot responses.

- **Task Management Application**

Built a full-stack web application to create, update, track, and manage tasks.

Technology Usage:

- **Django** – Used as the backend framework for CRUD operations and business logic.
- **SQLite** – Used to store task information and user data.
- **HTML** – Used to structure web pages.
- **CSS** – Used for styling and page design.
- **JavaScript** – Used for interactive features and client-side validation.
- **Bootstrap** – Used to create a responsive and mobile-friendly interface.

EDUCATION

Government College of Engineering, Dharmapuri Bachelor of Engineering (B.E.), Computer Science and Engineering	8.5 CGPA
Jayam Vidhyalaya Matric Higher Secondary School, Harur Higher Secondary Education	85%
Kalaimagal Matric Higher Secondary School, Kadathur Secondary Education	97.6%

TECHNICAL SKILLS

- **Programming Languages:** Python (Primary Skill), SQL, Java (Basic), C
- **Web Development:** HTML, CSS, JavaScript, React JS, Django
- **Database Technologies:** MySQL, Oracle SQL, SQLite
- **UI/UX Design:** Figma, Wireframing, Prototyping, User Interface Design
- **Tools & Platforms:** Git, GitHub, VS Code, Google Colab, Anaconda
- **Operating Systems:** Windows, Linux (Basic)

SOFT SKILLS

- Teamwork and Collaboration
- Problem Solving and Critical Thinking
- Effective Communication
- Leadership and Initiative
- Time Management
- Adaptability and Flexibility

CERTIFICATIONS & TRAINING

- Optimus Technocrats: Web Development Internship
- Tamil Nadu Skill Development Corporation: Mobile App Development
- Workshop on AI Horizons (Mahendra College of Engineering, Oct 2024)

WORKSHOPS & TRAINING

- **NVIDIA Fundamentals of Deep Learning**
- **Deep Learning Workshop** – Mahendra College of Engineering
- **Web Development Workshop** – Olgaar Technology
- **Cybersecurity Workshop** – Kriyavan
- **AI Horizons Workshop** – Mahendra College of Engineering

LANGUAGES

- English – Intermediate (B1)
- Tamil – Upper Intermediate (B2)
